

Multi-Media & Call Forward technologies transform the Patient experience with total clarity

Free staff from answering repeated questions and release your most valuable resources for more important tasks. See message screens in a clear and uncluttered way, helping equality and diversity. Promote additional services, clinic status & vaccinations.

Healthcare Multi-Media includes:

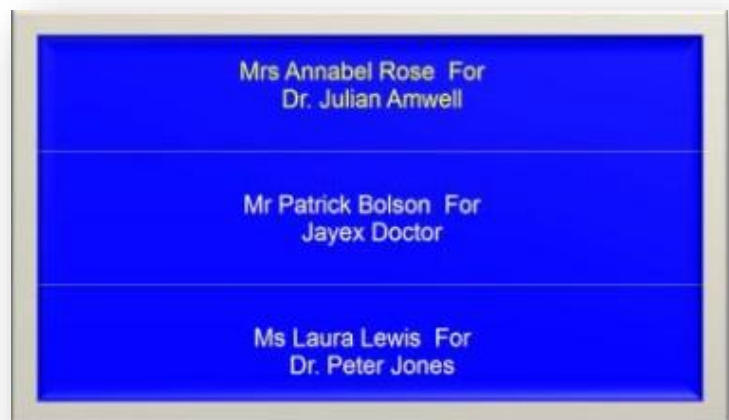

- Web based software
- Paperless communication
- Digital resource library
- Local or central management
- Wayfinding
- Uncluttered notice boards
- Multiple screen formats
- Real time updates
- Ease of use
- Integrated Patient Call displays

Healthcare call solutions exist to deliver for a diverse population, with both audio and visual call support and designed to let you spend more time with your patients.

Healthcare Call Forward includes:

- Inclusive for all patients
- Call by name or number
- More patients seen
- Multiple concurrent calls
- Queue management
- Flexible configuration
- Professional communication
- Real time status
- Reduces confusion
- Integrated with appointments

Thousands of customers continue to benefit every day from multi-media and patient call solutions. To find out more please contact us now.
